Birth place of IRONMAN® triathlon events, Kona, Hawaii is renown for being a very unique location with a special energy.

Most mythical race of all, the IRONMAN® World Championship gathers every year the greatest triathletes in the world.

This year again, on the 14th of October, more than 2 000 athletes will try to conquer this extremely tough race braving extreme weather conditions.

COMPRESSPORT® is very proud to support and encourage pro and amateur athletes who qualified for the event.

A full range of product on which the athletes can rely on

Nothing should affect the outcome of the race of any triathlete. Therefore, the choice of the equipment cannot be left to chance.

After the success of the 2016 COMPRESSPORT® IRONMAN® range COMPRESSPORT® is proud to present its new limited KONA edition 2017.

Combining the latest COMPRESSPORT® technologies, this special edition has been developed specially for ultra-long distances in extreme heat and humidity conditions with ultra-light, comfortable and breathable fabrics.

Improve performance, provide comfort and enhance recovery

TR3 BRUTAL SHORT

➔ Developed with the **new generation of compression tubes**, the TR3 BRUTAL SHORT combines **the latest innovations** in terms of **ventilation, thermoregulation and comfort** for **explosive performances** under all conditions. **Real technical innovation**, these compression tubes **include ventilation zones** for a **maximum comfort and ventilation**.

TR3 AERO TOP

➔ Designed for the most extreme races the TR3 AERO TOP and TANK combine **three major features**: an unmatched **lightness and fineness of fibers**, an **optimum thermoregulation** and a **new functional pocket system** designed for **quick accessibility**. You perform better and longer!

TR3 AERO TRI SUIT NEW

➔ The TR3 AERO TRISUIT benefits from an **excellent balance of aerodynamism, thermoregulation and comfort**. It also brings a **sensation of strength and muscular support**. Made in Italy, the **pad is comfortable, ultra-breathable**. It doesn't hold you back while swimming, protects you on the bike and is barely noticeable during the run! The **microfibers are extremely soft and enjoyable** to wear for **second-skin sensation**.

3D THERMO SEAMLESS HOODIE

➔ Specially designed to accompany the greatest athletes beyond their limits. **High thermal protection, extreme lightness, exceptional comfort**, the 3D THERMO SEAMLESS HOODIE provides an **excellent thermal protection**, and a **unique comfort**.

SPIDERWEB ULTRALIGHT VISOR

➔ This SPIDERWEB ULTRALIGHT VISOR is a must-have product if you are heading to KONA. On the front, its structure is visible throughout the mesh. This **transparent mesh does not retain heat or perspiration** while **protecting the eyes** from the sunrays. You can **run and keep the head high** and fully enjoy the race!

ULTRA LIGHT RUN CAP NEW

➔ Specially developed for intense, ultra hot and humid races. It allows a **good protection from the sun and the heat** thanks to the thicker fabric on the top of the head. A ventilation mesh around the head enables a **perfect evacuation of heat and perspiration**. The innovation also relies on the **articulated peak** which enables two positions: up to open your field of vision, down you are **fully protected**.

COMPRESSPORT® strengthens its presence

Throughout the event, **COMPRESSPORT®** will welcome the participants to its booth, **provide personalised advice, equipment and encouragement!**

COMPRESSPORT® is dedicated to **offering many surprises and animations** during the event.

Great athletes for the most coveted title

Thousands of athletes will push the boundaries and prove that nothing is impossible. This year again, some of **COMPRESSPORT®'s faithful triathletes** will be **at the starting line** including: *Frederik Van Lierde, Matt Hanson, Joe Gambles, Ruedi Wild, Giulio Molinari, Daniel Fontana, Thiago Vinhal, Lucy Charles, Mel Hauschildt, Gurutze Frades, Kristin Möller, Bart Aernouts, Ronnie Schildknecht, Patrik Nilsson, Brent McMahon.*
